5.7.2	<p>Performance appraisal of Teaching staff once in year :</p> <p>Institution has Performance Appraisal System for teaching and non-teaching staff.</p> <p>Teaching staff submits the performance appraisal report in prescribed format to respective HODs at the end of academic session. Performance based appraisal report is in the form of feedback recommended by AICTE which evaluate performance on the basis of (1) Teaching process: which includes No. of scheduled classes, No. of actual classes conducted (2) Students feedback (3) Departmental Activities (4) Institute activities (5) ACR maintained at institute level: which includes Result Summary and Research (6) Contribution to society.</p> <p>Respective HODs evaluate the performance appraisal of the staff and notes the observation on the basis of evidences and proof submitted by staff with the report. Also recommendation and remedial measures are suggested for the improvement of individual teaching staff. Finally the report is submitted to the Principal for recommendation and necessary measures. Faculty members having good performance are awarded with appreciation letter and incentives. The performance of non-teaching staff is monitored at the department level by respective head of department for staff those are working in the laboratory. Performance is analysed on the basis of laboratory conducts skill, tests occasionally to make sure that their performance is up to the mark</p>

20	Best Practices adopted by the Institute
	<p>Best Practice:</p> <ol style="list-style-type: none"> 1. Title : - Home counselling for the academically slow learner students of first year B.E. 2. Objective: - To improve academic performance of slow learner students with active involvement of parents in teaching learning process. 3. The Context: - Most of the parents reside in the rural background thus it requires interacting with student in presence of parents. Parents are not aware about their academic progress. To improve academic performance of slow learner student to help in all dimensions. 4. The Practice: - Faculty identifies the students having poor academic performance and plan offhome visit is chalked out as per availability of the parents. The faculty carries all necessary data related to their ward's like report card etc. 5. Evidence of success: - After home counselling, it was observed that most of the parents have agreed upon the facts about their wards. This results in overall improvement of their academic performance. It also helps to reduce the communication barriers with faculty. 6. Problems encountered and resources required: - Initially we have experienced resistance from the students in visiting their parents at homes probably due to poor economic conditions and availability of their parents. <p>Best Practice: 2</p> <ol style="list-style-type: none"> 1. Title: Establishment of placement assistance cell for Pass out Students. 2. Objective : <ul style="list-style-type: none"> • Organization of awareness programs for bridging the gap between industry and institution on latest industry trends. • To make the students industry ready through various training program. • To help the pass out students for placement assistance and extending the support. 3. The Context: <p>For passed out students who did not place in campus placements drives. To assist and help these students for placement, institute has established placement assistance Cell.</p> 4. The Practice: <p>The data regarding current employment status of passed out students from the institution who did not get placed through campus placement drive. To such students assistance is provided by this Cell.</p> 5. Evidence of Success: Many of the students got placed through the assistance of this Cell and the satisfactory feedbacks received by the parents/students telephonically. 6. Problems Encountered and Resources Required:

	<p>It is difficult to maintain continuous employment status of the students. In this regards this cell gets help of departmental training and placement Coordinators.</p> <p>7. Notes: The vision and mission of the institution has been fulfilled by providing the job placement which made student employable.</p> <p style="text-align: center;"><u>View File</u></p>
1	<p>Institutional Distinctiveness : Talent Hunt Examination</p> <p>“Sir Visvesvaraya Student Talent Hunt Fellowship Entrance Exam” Our institution is situated in socio-economically backward region of Maharashtra state at Yavatmal. As per the vision of institution, we are striving to propagate education to the people of tribal society in nearby region to bring about a social change in the rural sector for the upliftment of poor and downtrodden community. Many students are willing to pursue their higher education in the field of engineering and technology. Due to poor economical background, they are unable to opt for coaching classes for guidance to prepare MHT-CET examination which is mandatory requirement as an entry level qualification in addition to HSC science as their basic qualification. At our institution, since last two years, we have started conducting “Sir Visvesvaraya Student Talent Hunt Fellowship Entrance Exam” This examination is structured in two phases viz. phase-I and phase-II. Phase-I is carried out for initial screening of engineering aspirants. It was conducted in the month of December during which HSC science students are in the phase of revision of their syllabus because their final examination is scheduled in the month of February. For the stage-I of the examination around 100 numbers of examination centres are arranged in Yavatmal district and nearby region. Out of these, 10 examination centres are arranged in Yavatmal city itself. At our institution phase-II examination is conducted for the students those who have successfully qualified for phase-I examination. The features of talent hunt examination are as follows: 1.For phase-I examination approximately 2700-3000 students were appeared. 2.For phaseII examination approximately 1000-1200 eligible students were present. 3.Due to huge response from the non-eligible students for phase -II examination at institution, wild card entry is introduced to allow the students whose score in phase -I examination is up to 10 below than the decided criteria. 4.For each examination centre, responsibility is given to respective centre heads. 5.For maintaining transparency and confidentiality, sealed examination question papers similar to the pattern followed by the state government during the conduction of MHT-CET examination is followed. 6.The answer books and question paper booklets are prepared on the basis of the MHT-CET examination conducted by state government. 7.Question papers are designed by renowned subject experts for Physics, Chemistry and Mathematics respectively. 8.After the phase -II examination, arrangement of lunch for students and their parents was made by the institution. 9.Assessment of the answer book is done by Optical Magnetic Ink Reader (OMR) machine so that within two</p>

	<p>hours final result was declared. 10.The district wise and centre wise topper list is prepared. 11. Prize distribution ceremony is organized for distributing, laptops, mobile phones and attractive gift packages to the district toppers, centre toppers and subject toppers in Physics, Chemistry and Mathematics respectively. The objective of conduction of this examination is to provide platform for mock test before the MHT-CET examination. This activity promotes to make more number of students aware and make them competent to aspire admission in engineering.for phase-I examination.</p> <p>The features of talent hunt examination are as follows:</p> <ol style="list-style-type: none"> 1.For phase-I examination approximately 2700-3000 students were appeared. 2.For phase-II examination approximately 1000-1200 eligible students were present. 3.Due to huge response from the non-eligible students for phase -II examination at institution, wild card entry is introduced to allow the students whose score in phase -I examination is up to 10% below than the decided criteria. 4.For each examination centre, responsibility is given to respective centre heads. 5.For maintaining transparency and confidentiality, sealed examination question papers similar to the pattern followed by the state government during the conduction of MHT-CET examination is followed. 6.The answer books and question paper booklets are prepared on the basis of the MHT-CET examination conducted by state government. 7.Question papers are designed by renowned subject experts for Physics, Chemistry and Mathematics respectively. 8.After the phase -II examination, arrangement of lunch for students and their parents was made by the institution. 9.Assessment of the answer book is done by Optical Magnetic Ink Reader (OMR) machine so that within two hours final result was declared. 10.The district wise and centre wise topper list is prepared. 11.
